

WISCONSIN REALTORS® ASSOCIATION

Re: Diversity in Housing Committee

To Whom It May Concern:

By way of introduction we would like to tell you a little about the Cultural Diversity in Housing Committee from the Wisconsin REALTORS® Association. We are a Committee composed of real estate professionals that meets every two or three months to work on various projects designed to teach real estate agents to avoid potential discrimination and embrace cultural diversity. The Committee also works to promote diversity in the real estate industry through its Partnership for Success Program that provides a helping hand to new real estate agents from various cultural backgrounds.

We would like the opportunity from time to time to reach out to community organizations and work together where a cooperative effort will accomplish far more than we alone could do. For instance, we would appreciate the opportunity to distribute information about the Partnership for Success Program to different organizations and groups that have direct contact with persons who might benefit from this opportunity. We would also like to spread the word about the buyer's and the seller's accessibility reports that have been created to make it easier for persons with disabilities or special needs to rent or purchase a home.

We would be most grateful if you would share with us the name of a contact person and contact information for your organization so when we embark on a project that might provide a positive opportunity for members of your group that we might contact you and ask if you might help us make information available or provide your insight and knowledge to improve our efforts. There is much to learn by occasionally working with other groups such as yours, and we can hopefully in some small way contribute to the improvement of our communities.

Thank you for your consideration,

Sincerely,

A handwritten signature in cursive script that reads "Debra Peterson Conrad". The signature is written in black ink on a white background.

Debra Peterson Conrad
Senior Attorney and Director of Legal Affairs
